SUMMARY

Results-driven Frontend Developer with 2+ years of experience in crafting responsive web solutions using React JS, HTML, CSS, JavaScript, and jQuery. Seeking a ReactJS role to drive innovative web interfaces and enhance user experience.

EXPERIENCE

Frontend Developer

Infinity Soft Systems

April 2023 – Present, Noida, UP

- Engineered responsive front-end solutions for diverse client websites, optimizing user experiences across devices while collaborating with cross-functional teams to transform design concepts into engaging web interfaces.
- Implemented best practices in HTML, CSS, JavaScript, ReactJS, and jQuery to enhance website functionality and user engagement in front-end projects.

Front-end Developer (Intern)

Green-cross PCS

July 2020 – August 2020, Remote

- Contributed to the development of a pest control services website by implementing front-end design using HTML, CSS, and Bootstrap to create an intuitive and responsive user interface.

Web Developer (Intern)

NPRSS Private Limited

April 2020 – May 2020, Remote

- Acquired hands-on experience in web development, specializing in front-end technologies such as HTML, CSS, Bootstrap, Tailwind, and basic React.js, while also exploring back-end processes.
- Gained proficiency in version control using Git and GitHub to enhance collaborative development.
- This project let the users select multiple cars and compare their features.

PROJECT

Car comparison web app

Self • car-comparison-dashboard.vercel.app/ • April 2025 – May 2025

- This project let the users select multiple cars and compare their features.
- Engineered a car comparison web app that facilitated real-time feature analysis and personalized recommendations, elevating user decision-making and engagement.

Tax Repair

- Developed the "Tax Repair" website from scratch using front-end technologies, closely collaborating with the client to capture their vision and requirements.
- Integrated jQuery plugins for engaging user interactions and utilized Git Bash and Bitbucket for efficient code updates on the staging environment.

LITTLE LANE

littlelaneelc.com.au

- Collaborated with my team on front-end development, utilizing Git Bash and Bitbucket for efficient code updates while delivering results that met client requirements.
- Implemented jQuery plugins like Owl and Slick to enhance website functionality with features such as sliders and accordions.
